

Simplify Life.

Refinance Your Student Loans with iHELP®

Whether you have multiple private student loans, federal loans or even if your parents took out a Parent Plus loan, you can refinance them all into one, easy payment with a loan that works for your budget.

Our loans are funded by lenders who value the opportunity to invest in your educational dreams. By choosing iHELP as your student loan refinance partner, you support lenders that are invested in their communities, create jobs and help their local economies thrive.

Personal Assistance

With iHELP, you will work with a real person, who knows private student loans inside and out. Upon application, you will be matched with one of our Midwest-based experts who will be a single, consistent point of contact.

Flexible Repayment Options

In addition to standard principal and interest payments, students have the ability to request income sensitive or a graduated repayment schedule.

“Don’t hesitate! It doesn’t hurt to apply and the process was so simple. Best decision ever, game changer.”

- Jennifer Beesmer

No Origination or Prepayment Fees

Beware of fees that other lenders may charge you. With an iHELP student loan, there are no origination or prepayment fees which helps reduce your overall loan costs.

Multiple Rate Options

With each of our loan options - fixed, variable and fixed hybrid - we offer competitive rates. While not required, cosigners generally help a student qualify for a loan and may help a student qualify for a lower interest rate. Check out our current rates and eligibility requirements at [MyBank.com/students](https://mybank.com/students).

Borrower Benefits

- .25% rate discount for payments made via automatic debit
- Cosigner release option
- Deferment and forbearance options

“I was shocked at the rate we wound up getting. The process was genuinely very easy and I’m really happy with the new loan. I hope that in the future we can try to qualify for a better rate, and we’ll be using iHELP again.”

- Rebecca Brink
